## Judge W. C. Sheely Officially Opens Bi-Centennial Program At Abbottstown Friday Night

"We sometimes forget that we too are part of history and what we do will affect the people who come after us," Judge W. C. Sheely said Friday night in an address at the opening exercises for the observance of the 200th anniversary of the founding of Abbottstown.

Speaking from the porch of the Hotel Altland, on the square in Abbottstown, Judge Sheely told his audience of more than 100, "It is a pleasure to note that this community is one of the few which can boast that it has known all of the history of our nation."

"Abbottstown was founded while the King of England still ruled our land. It was 23 years old when the Declaration of Independence was written. It has seen the development of America and its growth as a nation. It has seen us change from a simple frontier life to a highly complex one."

**Had "Faith In God"**  
"Those who came here first had to do everything for themselves. They were pioneering a new country. There was little of what we know as the comforts of life. Their lives were hard and generally monotonous. They had to work terribly hard to even exist."

"But they were sustained by two things, their faith in God and their will for freedom. And those two are closely intertwined. When we have a strong belief in God, we have a strong belief in the integrity and the value of each man, we have a belief in freedom for the individual."

"They showed their faith in God by building, among their first buildings, their church. They showed their love of freedom by the very life they chose."

"We, their descendants today, live in a more complex world than theirs. We face many different problems. Where they had to, and could, meet every need of their own, we find ourselves every day more dependent on our neighbor and our neighbor more dependent on us. Thus we have more need for cooperation than did the early settlers."

**Merged Elements**  
"The early settlers saw something occur that we should recall. They saw all the divergent elements, all the different classes and races that made up America in the beginning, merge and cooperate to establish our nation."

"If those people, a highly diversified people, each with strong and sometimes violent desires to be let alone in individual freedom, each of whom could and did provide all he needed for himself, if those people could join together to cooperate to establish a nation, how much less excuse have we for failure to cooperate and build on what the past has given us."

The bi-centennial program opened with the ringing of church bells and the sounding of the fire siren at 6:30 o'clock to mark the 200th anniversary. George W. Baker, chairman of the Bi-centennial Homecoming Committee, called the Adams County Historical Society members, descendants of John Abbott, members of the program committee and others to the porch of the hotel for the service.

**Flag Is Raised**  
Then a flag was raised on the flag pole in the square, first by J. Faber Wildasin and Merle Sanders. Later a more formal exercise of raising the flag was held with Mr. Baker, W. W. Eisenhart, chairman of the observance committee, Judge Sheely and two direct descendants of the founder of the town, Frank Carns and Miss Dorothy Carns, Hanover, taking part.

Mr. Eisenhart served as master of ceremonies for the service. Following the program a band concert was presented by the New Oxford High School band and still later the first presentation of the pageant depicting Abbottstown history was presented. Today's events include a reunion at which the Abbott family will be honored and other reunions of former school students.

The program will continue through Sunday.

## MEMBERSHIP OF MOTOR CLUB IS INCREASING

With the acquisition of 20 new members in July, the Gettysburg Motor Club of Adams County is reported by the Pennsylvania Motor Federation as pushing its way up in the ranks of Class C motor clubs of the state, which constitute those clubs of 1,000 to 2,000 members.

The P. M. F. report for September shows that the local AAA club has gained 50 members in the fiscal period April 1-August 1 over the same period last year.

It is only 19 members back of the Elk-Cameron club of St. Mary's which club is reported as having gained 52 members over last year.

Miss Helen Spangler, secretary of the local club, said she hopes to overtake the Elk-Cameron club in another month and then start the long pull to get ahead of the Bedford club which on August 1 is reported as having 1,223 members, a gain of 107 over last year.

**Good Momentum Here**  
"Bedford is stiff competition for their members work very hard in the interests of their club," Miss Spangler said.

"However, we have a good momentum and it should not be impossible for us to get ahead of Bedford by the end of the year and stay ahead of them. Bedford and Gettysburg have much in common as travel objectives and as good substantial counties of almost the same population."

Miss Spangler reports the local club has been busy serving its members who are touring in many different sections of the country as well as serving AAA members visiting Gettysburg.

The local club has reciprocal services with the more than 1,000 AAA motor clubs throughout the country. The Pennsylvania Motor Federation, its state affiliate, is now near the 500,000 membership point while the American Automobile Association, the national organization, is approaching the five million mark.

## AREA DROUGHT LOSS MAY BE OVER \$100,000

Rain within the next day or two will be worth "at least \$100,000" to the farmers of Adams County, Assistant County Farm Agent Fred H. Attinger said today.

He made his prediction following a survey Friday morning and afternoon of a large number of tomato fields in the county. A rain now, he said, would increase production of many tomato fields by "as much as four or five tons per acre, all other things being equal." He estimated that tomato production increases alone resulting from a "good rain" would put approximately \$50,000 in the pockets of the county's farmers.

**Undersized Tomatoes**  
Drought in many sections is causing the production of thousands of undersized tomatoes, Attinger said, as well as hurting other crops. Green tomatoes just ripening on the plant would nearly double in size in many fields if enough rain fell within the next few days, he added. The increased size per tomato would increase production per acre and thus provide more money for the farmer.

No rain has fallen since August 18, according to the official weather records, and the amount on the 18th was only two-hundredths of an inch. The day before, the 17th, one-one-hundredth of an inch fell. Since July 23, when 3.01 inches of rain fell to break a previous drought, less than two inches of rainfall has been measured in Gettysburg. The dry spell on top of the previous drought has caused fields and trees to assume a premature fall appearance, with many changing the color of their leaves, and fields looking dry and bare.

The church will be decorated with two bouquets of daisies and gladioli. Soft bunches of springer will be tied on the first three pews and a white runner will be placed in the aisle.

To be given in marriage by her father, the bride will wear a full-length gown of white cotton lace designed with a stand-up collar, dolman sleeves, a fitted bodice, a full hooped skirt and a chapel-length train. Her fingertip veil is attached to a Juliet cap of cotton lace and she will carry a bouquet of shasta daisies and trailing ivy.

## Many Names May Not Be On Ballot

Approximately 150 candidates for various offices at the November election here have until Monday to file loyalty oaths, otherwise their names will not, under present interpretations of the law, appear on the ballot.

The men are those who were nominated by write-in ballots. Approximately 200 so nominated had not filed loyalty oaths at the time the nomination was completed. Since then 55 have filed oaths with the county election board at the Court House. The names of those who have not filed by Monday afternoon at 4 o'clock at the Court House will be dropped from the ballot, the county election board warned.

## Communists Declare They Will Return All Allied Prisoners Including Those Sent To Jail

**PANMUNJOM (AP)—**The Communists said today they would return all Allied prisoners wanting repatriation, including all those the Reds sentenced to jail for offenses allegedly committed during captivity.

The Reds also told the Joint Prisoner of War Repatriation Commission that "more than 300 Koreans and more than 20 non-Koreans" are refusing to be repatriated.

The Reds continued: "Owing to the fact that the operation of repatriation is still going on, our side shall continue to persuade them to be repatriated. Therefore, there still will be changes in this number."

**22 Refuse To Leave**  
At the port of Inchon, a repatriated Brooklyn, N. Y., man, Pfc. John J. McNeill, said he had been told that 22 Americans and one British soldier were among those either refusing or reluctant to be released.

McNeill said he understood that the 23 are expected soon at Kaesong, Red assembly point near Panmunjom, to be turned over to the neutral nations repatriation commission. This is the group organized to handle the machinery of deciding custody of such men. The Red promise to repatriate

Numerous prisoners had been sentenced at the time of the truce signing to prison for such alleged crimes as "instigating against the peace" and "waging germ warfare." At first, reports were the Reds insisted on the men serving their terms before being freed.

But in reply to U. N. questions, the Reds told the commission: "Our side will . . . repatriate all the POWs who insist on repatriation. The repatriation of prisoners of war who insist on repatriation is now approaching the end. All the POWs under our custody who insist on repatriation will be returned to your side by the time the repatriation operation concludes."

Col. L. C. Friedersdorff, senior U. N. members of the POW repatriation committee, told the Communists both sides were obliged to repatriate all who wanted to be repatriated within 60 days after the armistice took effect.

Tough American sergeants who were separated from their men in North Korean prison camps because of their outspoken resistance to communism began coming home Saturday.

# Court Orders Burly Canadian Woodsman To Stand Trial For Murder Of Young Pa. Hunter

PERCE, Quebec (AP)—A burly 39-year-old prospector-woodsman today faced trial on a charge of murdering one of three Pennsylvania hunters whose bear-gnawed remains were found last month in the Gaspé wilderness bush.

A provincial magistrate's court last night ordered Wilbert Coffin, the last man known to have seen the three Americans alive, to stand trial in the death of 17-year-old Richard Lindsey, of Hollidaysburg, Pa.

Young Lindsey's remains were found in the bush 65 miles west of Gaspé along with those of his father, Eugene H. Lindsey, 47, and a chum, Fred Claar, 20, of East Freedom, Pa.

The court's decision was announced by Magistrate Joseph Duquay following 12-hour-long preliminary hearing in which 17 witnesses testified. Coffin remained impassive throughout the proceedings.

No date was set for the trial but it will be held during the fall session of the Queen's Bench criminal assizes.

## Two Were Shot

The magistrate's hearing was called after a coroner's inquest in Gaspé Thursday held Coffin criminally responsible for the deaths of Claar and the younger Lindsey. An earlier inquest had ruled that the two youths died of bullet wounds but the cause of the elder Lindsey's death was unknown.

Police said the three hunters, who left on their shooting trip June 5, had been murdered in cold blood and robbed of \$700 and some equipment. Officers said some of the stolen articles were recovered in Montreal.

Coffin admitted having talked to the three Americans June 10. He was picked up last month and held as a material witness in the investigation.

A touch of drama hushed the little courtroom here last night when Coffin's mother, Mrs. Albert Coffin, was called to testify as the only witness for the defense.

## Recognized Trousers

She said a pair of blue jeans, identified earlier as belonging to young Claar, instead were her son's. She claimed she recognized the faded trousers from some mending on them.

Earlier, Claar's mother, Mrs. Clarence Claar, had testified she recognized the same jeans as her son's from a grey patch she sewed on last spring.

The disputed jeans had been found by police at the home of Mrs. Felix Stanley, Coffin's sister. Investigating officers also recovered a grey-brown suitcase, a shirt, some shorts and some blue towel. All these items were identified by Mrs. Claar as belonging to her family.

Earlier, Miss Marion Petrie, 40, of Montreal, testified Coffin had given her five-year-old son a pair

## PHONE STRIKE IN EAST ENDS; 60,000 QUIT

By LEWIS GULICK

WASHINGTON (AP)—Tension eased today in Washington, Maryland and West Virginia as telephone workers ended a one-day walkout, but some 60,000 Bell System employees in the Midwest and Southwest remained on strike.

The Southwestern Bell Telephone Co. and its striking workers in Missouri were admonished by Gov. Phil M. Donnelly to get together at once to end what he called an "intolerable" situation. The walkout of about 53,000 employees in Southwestern's six-state area is now in its tenth day.

In Indiana, where some 7,000 phone workers were off the job, there were reports of five more cable cutting incidents in three cities. An Indianapolis judge ordered picketing restricted there as an aftermath to a picket-line fracas Thursday night.

## Accept Offer

But in Baltimore, Maryland's Independent Union of Switchboard Operators which had not struck voted by a 3-1 margin to accept a contract offer of the Chesapeake and Potomac Telephone Co.

Union President Margaret Weiss said the new contract provides pay boosts from \$1.50 to \$2 a week for workers who had been getting from \$40 to \$57 weekly.

Strikers in Washington-Maryland-West Virginia and the Midwest states were all members of the Communications Workers of America, CIO. The union is negotiating with Bell System firms covering a total of about 130,000 workers, with the union asking boosts of \$2 to \$13 and the companies reportedly offering raises from \$1.50 to \$2.50.

Fighting giraffes swing their long necks like baseball bats in an effort to knock each other off balance. They also can deliver heavy blows with their hoofs.

of binoculars and a knife "as a souvenir from the American hunters" when he visited her home in Montreal June 15.

Questioned about the suitcase, Miss Petrie first said Coffin told her he bought it. She changed her testimony, however, when Crown Prosecutor Noel Dorion declared she had testified at Thursday's coroner's inquest that Coffin had told her he picked it up "on the road."

## RAIL STRIKE THREATENS ON SEPTEMBER 10

CEDAR RAPIDS, Iowa (AP)—The Order of Railway Conductors, seeking more pay for its 35,000 members, has announced it will begin a strike on some railroads at 6 (local standard time) Sept. 10.

The strike action was announced in Chicago yesterday by an aide of Tom Hughes, ORC president, and confirmed by an ORC spokesman here.

Hughes' aide, James Paddock, said the strike was concerned with rates of pay. Conductors, he said, have lost their "relative position" in the pay rate structure.

"The conductor now finds himself below the fireman, who is subordinate to him," Paddock said.

## Seek Guaranteed Pay

The conductors are seeking a graduated rate of pay. This means that the bigger the engine on a train, the more the conductor's pay would be. Engineers and firemen already have such a graduated rate based on the power of locomotives.

Letters outlining strike procedure were sent by Hughes to local chairmen of the union.

Steve Delehanty, Clinton, Iowa, local chairman, said the letter made these points:

All conductors on all railroads will not be called out simultaneously.

The ORC however, is prepared to consider expanding the strike until an agreement is reached regarding the graduated rate of pay for conductors.

## GPO SECURITY OFFICER WILL BE QUESTIONED

WASHINGTON (AP)—Sen. McCarthy (R-Wis.) set the stage for a possible clash today with the Government Printing Office (GPO) security chief over charges Communists have infiltrated the GPO and had access there to secret documents.

Philip L. Cole, deputy public printer and GPO security officer, was called before McCarthy's Senate investigations subcommittee for a hearing.

The Wisconsin senator has been contending that the GPO failed to fire several employees after receiving reports from the FBI identifying them as Reds. He has called the security set-up at the government's big printing plant "fantastic" and said his subcommittee has obtained testimony under oath that a person identified as a Red had access in the GPO to "secret material having to do with the A-bomb and the H-bomb."

Dennis Leakey Cole told a news conference last week he believes there has been no leakage of secrets from the printing office and nothing lax about the handling of loyalty cases. He said headlines making it look as if "carloads of secrets" were getting out of GPO were far-fetched.

And he said he would think a statement that top atom and hydrogen bomb secrets have been available to Communists at GPO would be "as far from the truth as it is possible to make."

Cole is a 30-year career man in the printing office. He started in at 16 as an apprentice printer and rose to "the second highest position in the office."

## Man Killed When Truck Hits Train

BURLINGTON, N. J. (AP)—An Avondale, Pa., man was killed here early Friday when his truck-trailer crashed into the engine of a freight train crossing Route 130.

Alva L. Seal, 54, was crushed to death by the engine which the impact shoved into the truck cab.

William J. Jordan, 58, of Trenton, the engineer, said he tried to throw the slow freight train into reverse as the truck approached, but he didn't have time.

The truck hit the engine about 10 feet from its front. The wreckage blocked busy Route 130 for more than an hour.

## Crack Conn. Train Kills Pedestrian

BERLIN, Conn. (AP)—Donald Watts, 49, of Williamsport, Pa., was struck and killed Thursday night by the crack New Haven Railroad express, "The Connecticut Yankee."

The engineer of the train told state police he saw Watts walking along the tracks about a mile from the Berlin railroad station, but that he could not stop in time to avoid hitting the man.

Watts was employed as a track laborer by the railroad and resided in a railroad camp near the scene of the accident.

Bifocal glasses were invented by Benjamin Franklin.

## U. N. CONSIDER KOREAN PEACE PARLEY SITE

By FRANCIS W. CARPENTER

UNITED NATIONS, N. Y. (AP)—South Korea was reported today advocating San Francisco or Honolulu as the site of the Korean peace conference. An alternate choice would be a city in Latin America, perhaps Rio de Janeiro.

This development came as U. N. delegates waited for Communist reaction to the General Assembly decision yesterday that its side would be made up of U. N. countries which sent troops to Korea, plus South Korea. The Soviet Union is to be invited if the Communist side desires it.

The U. N. hopes that Red China, North Korea and the Soviet Union will be the Communist representatives. Some sources here pointed out, however, that the Red have the right to invite other countries besides the Soviet Union. These sources speculated they might undertake to enlarge their side to meet the U. N. representatives nation for nation.

## No Date Set

As the special Korean session of the Assembly adjourned yesterday, U. N. Secretary General Dag

Hammarskjöld sent its decisions regarding the peace parley to Red China and North Korea.

No date has been set yet for the conference but under terms of the Korean armistice it should convene before Oct. 28. The United States, which bore chief responsibility for the unified command in the Korean fighting, was asked to consult the interested nations as to the time and place for the meeting.

In addition to the reported South Korean choice of San Francisco or Honolulu, Geneva, Switzerland; Beirut, Lebanon; Stockholm, Sweden; and Ceylon have been mentioned as possible sites.

# Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times

TEN YEARS AGO  
Corp. Jack Keith, serving in Iceland: Corporal Jack Keith, son of Mrs. John D. Keith, Carlisle St., is in Iceland and has been there since January although Army censorship only recently permitted that information to be given—members of his family here have learned.

At his first church service after reaching the new post, Keith discovered Lt. Col. J. H. August Bortels, son-in-law of Mr. and Mrs. Levi Diehl, Hanover St., and an alumnus of Gettysburg college, was the new base chaplain.

Here and There: Gettysburg and Adams county are well represented in the armed forces overseas. On several occasions two or more Gettysburg and Adams county soldiers have met at various spots in Africa, England and elsewhere. On one occasion five Gettysburg boys held a reunion in North Africa. Today comes another account of a meeting in North Africa between two Gettysburg boys, Pfc. John H. Myers, son of Mrs. Amanda Myers, S. Washington St., tells the story in a letter to his mother as follows:

"Well, guess what? I was in town a few days ago and whom did I come in contact with, but none other than First Lieutenant C. W. 'Reds' Epley Jr. (son of Mr. and Mrs. C. W. Epley, Chambersburg St.). He rode past me in a jeep and stopped and asked me where I was from and before he could finish we recognized each other. He jumped out and we shook hands after which I got in the jeep with him and we rode around town and had a swell time together. He sure looks good."

Town's Oldest Restaurant To Close Its Doors: Gettysburg's oldest restaurant, Spangler's, on Chambersburg St., will close this evening after 32 years of continuous operation.

Mrs. John W. Spangler, who has been in charge of the establishment since the death of her husband in June, 1940, said today that war conditions make the closing necessary.

The restaurant was started in 1911 by Mr. and Mrs. Spangler at the site of the present National Garage office. It was moved to the present Spangler building in 1918.

Ira K. Naugle Weds on Friday: Miss Mary Elizabeth Zerger, daughter of Mr. and Mrs. Clarence Zerger, Mercersburg, and Ira Kenneth Naugle, son of Mr. and Mrs. E. J. Naugle, Oortanna, were united in marriage Friday afternoon at 2 o'clock in the Thurmont United Brethren Church.

The Rev. Ivan Naugle, pastor, brother of the bridegroom, performed the ceremony which was witnessed by members of the immediate family and a few friends. There were no attendants.

\$1,200 and No Claimants: A total of \$1,200 has not been claimed by stockholders or creditors of the East Berlin railroad, a petition filed at the court house discloses. The petition, by the receiver, William P. Baker, of East Berlin, asks that the court permit the unclaimed balance be paid in to the state.

In his petition Mr. Baker points out that all stockholders who could be reached were paid a full \$15.50 per share for their stock and that all other claims against the railroad have been paid in full as far as can be determined. The unclaimed stock is divided among 52 share-holders who hold from a half-share of stock to five shares each. Of the number 32 originally are listed as Adams county but could not be reached at addresses given.

September 20 was set by the court as the date for a hearing at which final disposition will be made.

## POINT OF NO RETURN

"The point of no return" implies the port set out for nearer lies than that the pilot left, and so. Though low the threatening clouds and black, Than take the risk of turning back.

There comes the time when many learn They've reached the point of no return.

Though hope seems lost and strength they lack, No giving up, no turning back. Better in spite of doubt and dread To try to reach the goal ahead.

Somewhere along the years at last The point of no return is passed. When all our hopes depend upon No turning back, but going on, No faltering, no being weak, But onward to the goal we seek.

## A PRAYER

Heavenly father, we humbly bow our heads before Thee seeking wisdom and guidance. We stumble, hesitate, and often flounder without this guidance. Give to us the will and the courage to rise above all petty disturbances. Assure us, Enliven us with Thy divine spirit and a fearless unfailing vision of hope.

Quiet us at daybreak to meet every vicissitude of the day, and give us the pure heart to meet any emergency. Condition our minds and hearts to recognize Thy will in all things at all times and purge us from all self-interest. Sweep our hearts free from all regrets, resentments and hatreds. Create within us a universal spirit of love and consideration.

Forgive us our errors and transgressions, our unintentional blunders and misgivings. Kindle our faith in Thee anew each day, each hour. Teach us the significance of love for our country and for every human being, regardless of color, race, religion or origin. Freshen our hearts to the deep meaning of the Golden Rule that it may become a world rule.

Unite us in a holy crusade to bless all mankind, away from selfishness and interests that create dissension, bitterness, and resentment. Keep us tolerant and understanding. Make us worthy as servants in Thy Kingdom upon this earth. Inspire and elevate our minds. Give to us the cheerful outlook. Make our greatest happiness to be in the service of others.

Bless the bereaved and troubled. Give to them the assurance of Thy endless love and comfort. Give to them a light to guide them out of the darkness.

Grant to us, Oh Heavenly Father the wisdom and courage that will lead us away from all war and the senseless destruction of the works of honest toil and the handiwork of beauty. Bless this earth as a sacred garden to be cultivated equally in the interests of all, from the humblest to the greatest. Give to us "courage and gaiety and the quiet mind." Lead us each day to a full and unchallenged faith.

# POWS DECLARE RED TORTURES CONTINUED UP TO ARMISTICE

FREEDOM VILLAGE, Korea (AP)—Cpl. William E. Baker of Langhorne, Pa., said Friday the Reds starved prisoners into singing Communist songs at Camp 5 where he was held.

"They put the food up on the bank of a field and let you sit and watch it," he said.

"When you got hungry enough, you sang."

Cpl. Joseph W. Tolan, Port Carbon, Pa., said that once when he refused to sing a Chinese company commander kicked him in the spine.

A repatriated soldier from Homestead, Pa., said he saw Maj. Gen. William Dean in 1952 during "Olympic Games" held in Communist prison camps. Dean, captured commander of the 24th Division, has not yet been released by the Reds.

"I saw him in November, 1952, at Pyoktong during the Olympics," said Cpl. Thomas Kappel, 21, who was captured Nov. 30, 1950.

"No one got any closer than 100 yards but men who served under him said it was Gen. Dean. He came up in a jeep which had two guards, both carrying pistols, and a driver.

"They got out of the jeep and watched the Olympics for about 5 or 10 minutes. Gen. Dean was dressed in Chinese prisoner clothes."

# RUSSIANS TURN DOWN U. S. NOTE

WASHINGTON (AP)—Russia has rejected the U. S. government's protest over the shooting down of an American bomber in the Far East on July 29 and said it knows nothing of any survivors.

There were 17 crewmen on the plane. One of them, co-pilot John E. Roche, was rescued by an American ship.

In a protest over the incident lodged with Moscow Aug. 5, the United States had asked for information on persons presumed to have been picked up by Soviet boats. The State Department announced late Tuesday that a note from the Russians disclaimed knowledge of survivors.

Department press officer Lincoln White said this country stands on its contention that the U. S. plane was attacked over the open sea about 40 miles southeast of Soviet Siberian territory.

He said Moscow's reply, no made public, said the plane was over Soviet territory.

White said Moscow reiterated a demand made earlier that the United States take measures to "prevent violations" of Russian territory by U. S. planes.

## Braves Wallop Giants 3 To 1 And Dodgers Spank Reds 9-8; Yanks And White Sox Beaten

By BEN PHLEGAR

Associated Press Sports Writer  
Charlie Grimm better check with Charlie Dessen on which astrologer he reads.

If he doesn't, the stars may get the National League pennant race all confused.

Milwaukee's Charlie celebrated his 55th birthday yesterday and his horoscope, as compiled by one New York stargazer, claims his present frustration is only temporary and that everything will be okay in two weeks.

Grimm, who hasn't conceded anything to the Brooklyn Charlie even though his club trails Dessen's club by 9½ games, might interpret this prediction as meaning the Braves are still alive and the Dodgers are due for a fall.

The big hitch is that Dessen has a birthday coming up Sept. 20, soon enough that his horoscope at the moment is the same as Grimm's. And Brooklyn Charlie's "slight frustration" presently is the fact his Dodgers are so close and yet so far from clinching their second straight pennant. If everything clears up for him, too, in the next two weeks, as the astrologer suggests, it could only mean the Dodgers would be in.

Certainly this would seem much more likely. Although the Braves have played excellently—winning 24 of 34 in the last month—the Dodgers have played better—25 victories in 32 games over the same period.

Both clubs won last night. The Braves beat the New York Giants 3-1 with Warren Spahn winning his 19th game. Brooklyn banged four home runs for the second game in succession, whipping Cincinnati 9-8. Pee Wee Reese hit two, Carl Furillo one and Roy Campanella one.

The Dodgers now have tied the National League record of having four hitters with 20 or more homers in the season. Campanella's drive, his 33rd, equalled his all-time major league high.

Curt Simmons of the Philadelphia Phillies blanked the Chicago Cubs on four singles 5-0 and St. Louis edged Pittsburgh 10-9.

In the American League the New York Yankees dropped their second straight to Cleveland 3-2 but didn't lose any ground to the Chicago White Sox who also bowed 4-3 to Boston. St. Louis defeated Philadelphia 8-3 and Washington thumped Detroit 7-4. The Yanks lead by 9½.

## IDAVILLE AND LEGION IN TIE

Idaville and the Shippensburg Legion battled to a 3-3 deadlock at Shippensburg Friday evening as they continued their title playoff series in the Cumberland County Baseball League. Darkness halted the game after six innings.

The teams will clash at Idaville Monday evening at 6 o'clock. Idaville leads 2-1 in the best-of-seven series.

A homerun by Herb Deardorff in the sixth inning, with a runner on base, enabled Idaville to deadlock the score Friday evening after the Legion had gone ahead 3-1 with two runs in the last of the fifth frame.

Score by innings:

Idaville 0 0 0 1 0 2—3-5-1  
Shippensburg 0 0 0 1 2 0—3-8-1

## Hurler Has Easy Time With Albany

By The Associated Press

Ed Moeller of the Scranton Miners can hardly wait for the Eastern League schedule to bring him up against the Albany Senators.

Last week the righthander was credited with victories in both ends of a doubleheader at Albany. And last night Moeller notched his third straight triumph over the Senators, then turned in a one-hit relief job to save the second game of a twin bill at Scranton.

The Miners won by scores of 5-1 and 13-6.  
The first-place Reading Indians stretched their lead over the Binghamton Triplets to 2½ games by beating the Elmira Pioneers, 4-3 and 4-2. The Trips downed the Williamsport Athletics, 6-3, and the Schenectady Blue Jays drubbed the Wilkes-Barre Barons, 5-2.

## Mitchell To Head Democratic Dinner

CHICAGO (P)—The main job of directing plans for the Democratic fund raising dinner in Chicago on Sept. 14 has been taken over by Stephen A. Mitchell, the party's national chairman.

Mitchell took charge of arrangements for the \$100-a-plate dinner after John J. Kelly, a Chicago attorney, quit yesterday as chairman. He said his ideas "conflicted" with those of Mitchell.  
Party leaders said Kelly's resignation could not be termed a party rift but rather a personal matter. Kelly reportedly was mistified because he was not named toastmaster at the dinner at which it is hoped to raise \$250,000 to pay off national committee debts.

The mercury climbed to 98 yesterday, equalling the all-time high for the date set in 1948. The Weather Bureau records cover 82 years.

James Cox, Brady, whose Artismo won the closing day Sapling Stakes, led money winners during the Monmouth Park racing season with \$84,925.

## One At A Time For The Dodgers

Pee-wee Reese (1), Brooklyn Dodgers shortstop, is put out at third by Chicago Cubs third baseman Randy Jackson in the first inning of the game at Ebbets Field, Brooklyn, August 27. The Dodgers tried a double steal but catcher Joe Garagiola's throw caught Reese. Duke Snider took second on the play. The umpire is Len Roberts.

## NARBERTH BOY SELECTED MOST "VALUABLE"

EPHRATA, Pa. (P)—A lanky youngster from Narberth, Pa., Nick Fitzgerald, has been named the most valuable player in the state's American Legion Baseball ranks.  
The southpaw pitcher was named after last night's annual East-West All-Star game, won by the East, 9-7, while an estimated 1,100 looked on. Fitzgerald pitched the sixth and seventh innings for the victors, giving up one run, no hits. He fanned four, and walked one, batter.

**Selected By Scouts**  
Thirty-eight big league scouts picked the youngster by a scant margin over East shortstop Tommy Morgan, the fans' favorite. The hustling Valley-View youth, mainstay of the East infield, was on base five out of six times he appeared at the plate during his nine-inning stint. He hit a double and a single, walked twice, and was safe on a fielder's choice on another occasion.

Tom Kirkpatrick, a West pitcher from Beaver Falls, and East outfielder Stewart Gehl, Reading, tied for third place in the voting.

The giant squid, a carnivorous sea animal, may weigh up to 30 tons and is something like an octopus, although it has ten arms instead of eight.

## Mary Lena Faulk Favored In Tourney

PROVIDENCE, R. I. (P)—If Mary Lena Faulk only had her own golf clubs, she might have made a shambles of the 1953 U. S. Women's Amateur Championship.

As it is, she's rated no worse than a toss-up against Polly Riley in today's 36-hole final for the 63rd championship.

All through this tournament, the Thomasville, Ga., girl has been playing with a set of irons borrowed from pro Peggy Kirk, and a once-discarded set of woods and putter. And through the five rounds she scored better than anyone in the tournament.

After losing to Philomena Garvey in the semi-finals of the British Amateur Championship last June, Mary Lena shipped her clubs home by boat. She's still waiting for them and that's why she had to use the makeshift set when she returned to competition after a long rest.

## AUSSIES SEEK U. S. NATIONAL TENNIS TITLE

FOREST HILLS, N. Y. (P)—Australia's young tennis stars, who were thwarted at Wimbledon, open their assault on the United States National tennis championships today.

Ken Rosewall, a slender black haired strategist generally regarded as the best of a good batch from down under, runs headlong into what looks to be the toughest match on the first day of the 10-day tournament on the grass courts of the West Side Tennis Club.

He faces Bernard Bartzen of San Angelo, Tex., a dangerous left-hander. Back on the tournament trail after an army hitch Bartzen has shown signs of regaining the brilliant form he displayed as a junior. The 18-year-old Rosewall could have plenty of trouble.

Rosewall's 18-year-old buddy, big Lew Hoad, will be able to give vocal support from the sidelines since he isn't scheduled for action until tomorrow.

Vic Seixas of Philadelphia, the man who turned back the Aussies at Wimbledon in June, is top seeded among the Americans. He meets Morton Stern of Philadelphia in a match immediately preceding the Rosewall-Bartzen engagement.

**India Withdraws From Truce Talks**

UNITED NATIONS, N. Y. (P)—India averted a defeat in the U. N. General Assembly Friday by withdrawing as a possible participant in the Korean peace conference.

The announcement was made by Indian Delegate V. K. Krishna Menon as the 60-nation General Assembly prepared to act on proposals for setting up the peace parley.

Menon referred to the strong opposition by the United States and the Latin American bloc in the Political Committee and said:

"I think the purposes of peace are best reached by not forcing the resolution on India in this assembly."

India's defeat had been certain in view of the fact that yesterday's 27-21 vote in the Political Committee was far short of the required two-thirds majority.

Mr. and Mrs. John O. Moyer, near Holtzschwamm, have learned of the recent assignment of their soldier son, John, to Ft. Monmouth, N. J., for special training after completing basic training at Camp Gordon, Ga. He entered the army in May.

The Misses Audrey Myers and Nancy Nell have returned to their York homes after a visit with Miss Myers' grandmother, Mrs. Orpheus W. Myers, near here.

Mrs. Lottie Darone, formerly of here, who resides with her at West York; Mrs. Darone's daughter, Mrs. Leo LaRose, husband, and son, Philip, of the York area, have returned from a month's stay at the Cletus E. Mummert summer home.

ADVERTISE IN THE TIMES

# Riding with Russell

REG. U.S. PAT. OFF.  
by **FREDERICK C. RUSSELL**  
Member S.A.E.

Some people's driving may be improving but it's still a long way from being cured.

**Pre-Trip Trial Run**

It's a fairly simple rule but few summer vacationists remember to give the car a trial spin before starting off on the big trip. Too often the car goes right from a pre-trip servicing into the real grind of the tour. Sometimes trouble will develop after installing a new set of tires, but this can be caught if the car is driven around town for a few days. Sometimes it is just one of the new spark plugs that proves to be defective, or ignition timing that is a little too far advanced for the engine's condition.

Some tourists do not realize that driving through their home city on the way to the country may be a blessing in disguise. I once caught the motor temperature gauge going skyward just as I was reaching the city line. The fan belt was loose and badly worn, but there was a repair shop one block back. Friends of mine washed the car the day before the trip but forgot to remove the rubber cover put over the engine. Had they driven the car a few miles around town first the fire that developed could have been extinguished with comparative ease. As it was the motor burst into flames on a hill just out of town where help was too slow in arriving.

**For Future Reference**

Knowing how erratic the clutch can be, and what a wide variation there is in clutch life on different cars and in the hands of different drivers many operators believe they are justified in being puzzled over when to replace a clutch plate. Make a note of the fact that there need be no doubt about this. The rule is that when you can no longer adjust the clutch pedal for the usual amount of free play (about one inch) the clutch plate's lining is worn out.

**Exits For Gasoline**

How does gasoline leak from the carburetor? Some of it seems quite mysterious to those who find that when they go to crank the engine after the car has stood for several days (sometimes just overnight) there isn't any fuel in the float bowl.

Loose jets are one explanation of this. Another is a poor seating needle valve in the float chamber. Less common, but quite baffling, is the coated condition of the inside of the float bowl. This encourages fuel to climb up the inside of the bowl, by capillary attraction, and work out past the cover gasket.

The choke may also be a factor. Normally an automatic choke should close when the engine cools off, thus preventing evaporation from the bowl.

**Mechanic Joe Speaking:**

"Greasy brakes have a different action when hot than when cold, or if the condition has just begun. When cold a brake may simply slip. If this happens to be the right front brake the braking effectiveness then shifts to the left front wheel and the car pulls sharply to that side. When heated, however, the grease may become tacky. In that event the right front brake would grab and pull the car in that direction. Slight pulls one way or the other may hint of the beginning of leakage of brake fluid

into the brake drum."

**Getting Off The Tar**

In many sections of the country tar from roads is no problem, and this often explains why tourists who run into the problem for the first time are so perplexed. Auto stores and filling stations sell various brands of tar remover which is most effective if properly used. On lacquered finishes the solution can be used straight, but over synthetic enamel it is best used with light engine oil in the proportions of one part of oil to four of the remover. Main trick in using this aid is to wipe it on but not try to rub the tar off. Let the tar remover stay on the spotted areas for a few minutes and then wipe off with a clean cloth lightly. Then wash the affected areas with cold water.

**Three To Remember**

If it is difficult to maintain normal front-end alignment the trouble may be abnormal action of the coil springs or the shock absorbers. They are apt to make knee action too stiff.

Some baffling engine noises have been traced to loose fan blades. These blades must also have correct pitch.

Use of a second muffler in tandem with the first will not increase back pressure but will be effective in checking exhaust sharpness.

**Far From Standardization**

As further proof of the surprisingly wide differences in details of American car design is the situation with regard to oil pressure regulation. Many do not know that on the 1949 through 1951 models of one of the eight-cylinder cars there is not only the usual pressure relief valve for the general oiling system but a special relief valve to help control pressure to the hydraulic valve lifters. Beginning with the 1952 model the company discontinued use of the special valve. This particular valve is likely to puzzle many an owner, and not a few mechanics.

**New Guide To Economy**

Fooling around with a new meter known as a performance indicator I have found another way to drive more economically. The gadget on my car is a very ingenious pendulum hooked up to a yellow indicator which swings to the right on the dial to show the rate of acceleration and to the left to indicate deceleration. Observing the pointer I find that if I keep it straight up to the zero mark the engine is doing the least amount of work needed to keep the car rolling. Just as soon as the indicator starts to move to the right that I am starting to press down on the accelerator. Were it not for the indicator I would be quite unconscious of this. The gauge thus should help in developing that lighter foot technique which is so important in fuel economy.

Of course it takes gas to ac-

celerate for passing, for getting the car under way and for climbing hills. Any dashboard vacuum gauge will offer the same proof. But I was just curious to note that the performance indicator offers this unexpected opportunity to drive more efficiently. I find, too, that when the pointer starts swinging to the left without benefit of braking the engine is holding back the car because of its own compression braking. This may be wasteful because the car may not need to be slowed down. It would be more economical in the long run to open the throttle just a shade more to take advantage of the car's momentum.

**Having Their Troubles**

Q. Several times lately the engine has continued running after switching off the ignition. I had this happen some years ago when the engine overheated. Mixture just fired itself until I stalled the motor. But this time there is no evidence of overheating. R. T. M.

A. Looks like you have a defective ignition switch.

Q. Is it true there are two diaphragms in the distributor of my new car? K. H. N.

A. Yes. One is connected into the primary throttle bores of the carburetor, while an inner diaphragm is connected into the venturi of the secondary bore. Mechanics use a vacuum gauge for the checking.

Q. There is a decided slipping in the clutch of my car, but the facing of the clutch plate is fairly new and there is no evidence of any oil or grease on the plate. Any suggestions? M. B.

A. You may find weak or broken clutch springs.

Q. There's a definite shimmy in the front end of my car at lower speeds — that is, at speeds under 30 mph. There doesn't seem to be anything abnormal about the front end. J. J. R. Jr.

A. I suggest a recheck to find out if there is unequal caster be-

tween the front wheels. Check also for a loose front wheel bearing.

Q. Taking my car on the road again after two years of storage. Do you think it would be necessary to rebuild the motor? T. H. B.

A. You never know. Before using the motor, however, I would take down the engine oil pan and manually clean out all the accumulated sludge. Clean carefully around the valve compartment, too. Replace the pan and valve cover gaskets and put in about half light oil and half tune-up oil or any of the commonly used additives. This will work into valve guides and around the rings quickly and should greatly help the situation. If the motor runs all right drain off the oil at 200 miles and fill up again with fresh oil suitable for the season, plus some additive to help the valves and rings.

Q. Do the 12-volt systems require heavier wiring? S. J. McK.

A. The fact is that they can operate with lighter wiring.

Q. There seems to be a whistling noise in the rear of my car. Checked the muffler and find that it is apparently in good condition. G. J. V.

A. A hole in the tail pipe will do this. Air rushing over it will produce the noise.

Q. I notice that the lights on my car grow brighter whenever I accelerate the engine, but the battery isn't weak. Tests show that the generator is delivering full output and that the battery gives a fine account of itself by volt-

All hands will be on deck to speed Johnny off to his exciting new world. And no hands will be busier than Mother's. That is, unless you count the helping hand of electricity, which helps Mother at every turn.

Electricity helps wash Johnny's socks, iron his shirt, cook his breakfast, and even heats the water to scrub behind

his ears! Later on, electricity will help him get his lessons by making study easy on his eyes.

As a matter of fact, the older Johnny grows the more ways electricity can help him. It's *always* ready to lend a hand, at a price so low that it's actually the biggest bargain in the family budget today!
